

## Lecture NATMUS, FRIENDS OF THE MUSEUM OF DANISH RESISTANCE 28 OCT 2015 19.00

Thanks for the welcome from Lars Emborg Jensen. Have been looking forward to telling Friends of the Museum of Danish Resistance and others about Allied airmen. Meet friends, family and others that I only have had a mail contact to. Hope to say Hello to you later.

Particularly glad to come here because the Fund of Friends of the Museum of Danish Resistance (FMV) so far have been the only source of financial support to my website AirmenDK. Both the amount and the appreciation have pleased me. And after my death the National Museum of Denmark will preserve AirmenDK and free access to it. Rather unusual that one person on his own throws himself into a project of that size on the internet, even if quite a number of people have contributed to the contents. If it had been a university project for a book, it would have been different. Funds more than 20 years old have nothing in their instruments of foundation about supporting projects on the internet. Now I make money via lectures, and I gladly do that all over Denmark with the favourite title: Allied airmen shot down over our area and the rest of Denmark. They are very different. See keywords (stikord). Tonight I tell about airmen on a national basis.

As a teacher in Havndal north of Randers, after 2 years in the army where I became a sergeant and a lieutenant in the field artillery, I taught history, English and other subjects. In 1998 I made Linksbuketten (A Bunch of Links) which till now has had more than 500,000 visits. Since August 2007 I have worked on the website about Allied airmen. There was no war for me to join, but I can keep the memory of Allied airmen.

DK is a nice country due to the efforts of Allied airmen and quite a number of others - some of them may be in this room or you may be close to some people who did what they could to make DK a free country - and maybe it cost them their lives.

Have not visited a few of the small islands but apart from that I have been nearly everywhere with something about Allied airmen. I am going to tell about a selection of 463 planes and 3088 airmen, nearly all of them shot down over DK. After a little more than an hour there will be an opportunity for questions and comments. If you can see an exciting film on 1½ hours it ought to be possible with the same time without a break here - and there will be TV-items.
