Target	Stettin	1595923	Sgt.	McSporran, N.G.	AG	Kiel
Special Remarks:	Left 2111 hrs. 29th Aug.					
Other pilots reported fighter activity over Danish coast. Two other of squadron's Lancs. were attacked, but successfully evaded.	The identity of this aircraft remained a puzzle for a very long time. In 1949 it was finally identified at crash site by the collar of Sgt. Sadler.					
	Lancaster LM116 crashed at Karup Plantage just north of Karup about 9 miles NE of Herning.
